

Record Call

Last Modified on 01/24/2018 4:51 pm EST

Important! Check applicable laws in your area before recording calls.

Call recordings are saved in your voice mailbox.

Start automatic call recording before dialing

1. Lift the handset or press the Speaker button.
2. Enter 533 (feature code for Call Recording).
3. At the second dial tone, dial the number.
4. When the called party answers, the Record Alarm tone plays and recording starts.

Cancel automatic call recording

- Enter 533.

Start call recording during a call

1. Press the TRANS softkey or the Transfer button.
2. Enter 533 (feature code for Call Recording).
3. After the Record Alarm tone plays, recording starts.

Stop call recording during a call

- Enter 533.
