

Call Log

Last Modified on 01/24/2018 4:51 pm EST

Your Call Log contains a record of all of your incoming, outgoing, busy and missed calls.

Manage the Phone Call Log

1. Press the LOG softkey, or enter 537 ([feature code](#) for Call Log).
2. Use the directional buttons to scroll through the Call Log entries.
 - To call a number, press the SEND softkey.
 - To view details for an entry, press the SELECT softkey.
 - To delete an entry:
 - Press the DEL_SEL softkey and then press 1 to confirm the delete.
 - Or, while viewing details for an entry press DELETE .
 - To delete all of the Call Log entries, press the DEL_ALL softkey.
 - To [create a speed dial](#) for the number in the entry, press the SAVE softkey.
 - Press 1 to confirm SPEED.
 - Press the OK or HOLD Button to save
 - Enter the name of the Speed Dial and press the OK softkey
 - Click the OK softkey. "SPEED BIN NO (nn)" indicates that the speed dial was created successfully.
 - (see also Speed Dial FAQ)

Interpreting the Call Log Display On the Phone

One of the following icons identifies the type of call:

▶: Outgoing Call

◀: Incoming Call

M: Missed Call

B: Incoming Call on Busy

X: Call from unknown telephone number

F: Forwarded Call

D: Call in DND

P: Call picked up by another phone.
