While in Do Not Disturb (DND) mode, incoming calls will not ring your phone, but will go to your voicemail or call forwarding location. DND will be turned on automatically whenever any [call forwarding](#) setting is in effect.

You can also use [Timed DND](#) to turn DND on and off automatically at specific days and times.

Turn DND on and off

1. In your browser, go to the [iPECS Cloud User Portal](#) and log in.
2. Expand My Phone & Features and click Do Not Disturb.
