Notification Options (UCE Desktop)

Last Modified on 03/14/2018 11:47 am EDT

Notification options control how you receive notification for certain events.

- 1. Open the Options screen.
- 2. Click Notification.

Options		>
General IM	Notification Sound Sound	
Video Device SIP Information Change Password	Notification Pop-up Show Pop-up windows unt Missed Call	til closing IM Message
Call Notification	 Schedule ISMS 	Memo Immediately receive a iSMS
Codec Contacts export/import		OK Cancel

3. When you are done making changes to the options described below, click OK.

Notification Sound

• **Sound**: If checked, you'll hear an audible notification when any of the events configured below occur.

Notification Pop-up

- Show Pop-up windows until closing: If checked, a notification pop-up window stays open until you close it. If unchecked, the pop-up closes automatically.
- Select the events for which you want to receive a notification pop-up:

- Missed Call
- Conference
- Schedule
- iSMS
- IM Message
- Notice (not in this version)
- Memo
- Immediately receive a iSMS
