

SBC SIP Extension Media Information

Last Modified on 10/26/2022 6:29 pm EDT

Feature first available:

iPECS Cloud version 5.0.

Description:

In the Reseller portal Under Customers -> Customer Info, the SIP extension media IP addresses and port ranges will be added to other provisioning information already present. This information is useful when initially deploying or when defaulting a phone to test and needing to get it re-registered.

Example:

Basic Info	Administrator	Site Info	Billing Account	Service Info	Service Usage	Order History	Phone Setting Info
iPECS LIP Phone Registration IP Address	66.171.194.12						
iPECS SIP Phone Provisioning URL	https://66.171.194.12:7871/PROVISIONING
