

# UI Enhancements

Last Modified on 01/02/2024 6:28 pm EST

## Feature first available:

iPECS Cloud version 6.0.

## License Required:

iPECS Cloud Premium or Premium Plus licensing is required to use this feature.

## Description:

iPECS Cloud 6.0 comes with several UI enhancements:

- **Video Conference Moderator** - As a moderator on the mobile client, you can start a video conference from your device, as well as admit or reject guests who request to join the meeting via the video conference link.
- **Instant File Open (Web Client)** - In iPECS ONE P3, a file is downloaded when clicked. In P4, when you click on an attached image or PDF file in a chat/space room, a preview is displayed.
- **Find a User with Identifies** - Additional information (company, department, and/or title) is displayed for searched users to help identify people with the same name. This functionality applies to the global search, dialed search, call transfer, invite, and call forwarding UI.
